

UNITED STATES DEPARTMENT OF AGRICULTURE.  
FEDERAL HORTICULTURAL BOARD.  
WASHINGTON, D. C.

February 21, 1914.

NEWS LETTER No. 4.

BUREAU OF ENTOMOLOGY  
RECEIVED  
MAR - 3 1914

Dear Sir:

U. S. Department of Agriculture

I am submitting herewith a report on the pests collected during the month of January, 1914. Attention is called to the fact that one egg mass of the Gipsy Moth was detected on cedar from Japan, and a single Brown Tail nest (?) has been taken on Mahaleb stock from France. The European Tussock Moth (Notolophus antiqua Linn.) has been intercepted on two shipments of Holland rose stock, and the Oriental Moth (Cnidocampa flavescens Walk.), which has an extensive distribution in the Orient, has been detected on plants from Japan. The European pear scale (Epidiaspis piricola Del G.), a coccid which has in recent years become established in certain sections of California, has been reported on pear seedlings from France. The records of brown-tail moth infestation noted in News Letter No. 2, will appear in the report for February.

Yours very truly,

C. L. Marlatt,

Chairman of Board.

# Lists by Countries of Pests Collected.

## Pests.

## Hosts.

## Times collected.

### BRAZIL.

Anthribid	Arborescent shrub	1
Bruchus chinensis (?)	Feijoa fradinho	1
" " "	Phaseolus sp.	1
" obtectus Say	" "	2
" sp.	Feijoa fradinho	1
" "	Phaseolus	1
Calandra granaria Linn.	Corn	1
Curculionid	Eugenia	1
"	Phyllocalyx luschnathianus	1
Spermophagus pectoralis Sch.	Phaseolus sp.	2

### ENGLAND.

Aphis	Apples	1
Apion ulicis Forster	Ulex europeas	1
Botrytis	Rose	1

### FORMOSA.

Aspidiotus sp.	Cudrania javanensis	1
Pseudaonidia sp.	" "	1

### FRANCE.

Apatela sp. (?)	Pear	1
Browntail (?)	Mahaleb	1
Epidiaspis piricola DelG	Pear Stock (seedlings)	1
Woolly aphis	Apple seedlings	1
Leaf spot	Boston ivy	1
Needle fungus	Scotch pine	1

### HOLLAND.

Aphids (?)	Evergreen trees	1
Aphis sp.	Juniper	1
Lepidosaphes ulmi Linn.	Boxwoods	1
" "	Cherry, Prunus and Peach	1
" "	Shrubs	1
Notolophus antiqua Linn.	Persian yellow rose	2

<u>Pests.</u>	<u>Hosts.</u>	<u>Times collected.</u>
Notolophus antiqua Linn.	Rose bushes	1
Leaf fungus	Rhododendron	1

### JAPAN.

Agromyza websteri Malloch.	Wistaria	1
Aleyrodes sp.	Azaleas	1
Aphis sp.	Cedar and Juniper.	1
Aspidiotus perniciosus Comst.	Twisted cherries and peach	1
" sp.	Maple	1
Bagworms	Cedar and Juniper	1
"	Persimmons	1
"	Not given	2
Borers	Maple	1
"	Not given	2
Ceroplastes ceriferus Anderson.	Persimmons	1
Chionaspis wistariae Cooley	Wistaria	1
Cicada eggs	Persimmons	3
Cnidocampa flavescens W.	Not given	1
Diaspis pentagona Targ.	Cherry	1
Gipsy moth eggs	Cedar	1
Leaf rollers	Cedar and Juniper	1
Lepidosaphes newsteadii Sulc.	Sciadopytis	1
Mantis eggs	Persimmons	2
Parlatoria sp.	Maples	1
" theae Ckll.	"	1
Poliaspis pini Mask.	Pine trees	1
Pseudococcus sp.	Azaleas	2
" "	Wistaria	1

### REUNION.

Bruchus sp. (possibly new)	Vignia sinensis	1
----------------------------	-----------------	---

### SCOTLAND.

Crown-gall	Manetti stocks	1
------------	----------------	---
